

Scale your studio pipeline.

Expand your portfolio.

Position your creative business for growth.

The fastest, most cost-effective way to supply artists with industry-standard creative tools. At their desktops, the render farm, and throughout the entire pipeline.

Equip your team

Artists at every stage of the pipeline - from modelers, lookdev artists, and animators to visual effects artists and TDs - have access to the tools they need to create believable 3D characters, sweeping landscapes, and complex simulations.

The power of connected workflows

Work faster and smarter with powerful and proven artists' tools that work together seamlessly, integrate into your pipeline, and make it easy to scale up your rendering and visual effects output when you need to.

Be ready to grow

Build a scalable pipeline for 3D animation, effects, simulation, and rendering to tackle even the most demanding jobs - and expand the services you offer to take on the creative projects you've always wanted.

Scale up your studio's rendering and simulation capabilities, while getting your artists the modeling and animation tools they need. The Media & Entertainment Collection is the only way to access **3ds Max**, **Maya**, and **Arnold** - all with a single license. Visit www.autodesk.com/mediaentertainment to see everything included.

Build a scalable business

Reduce the time to final frames

Equip your artists along the entire pipeline with powerful tools to help them deliver beautiful work faster, reduce delays, and keep big (and small) creative projects on track.

Get more for your money

Take advantage of significant cost savings when purchasing multiple Autodesk software solutions as part of a collection.

Manage operational costs more effectively

Reduce operational costs (IT and procurement spend) by standardizing on a collection of technology flexible enough to suit the needs of a majority of your users.

Smarter software management

Simplify software management

Streamline deployment and software management with a standardized collection of Autodesk products and services.

Streamline the procurement process

Eliminate additional paperwork and unnecessary procurement cycles by selecting a collection that includes all the technology your users will need - now and in the future.

Optimize your IT spend

Gain significant cost savings when purchasing multiple Autodesk software solutions as part of a collection - giving your users access to more technology while reducing IT costs.
